Error Reviews
After each week members need to complete reviews on each member
Each members review form will list tasks to write a review on
After completing all reviews the app will show the member how people reviewed them
Members can view their reviews any time

Screens
Social Components, Task Creation, View In-app Calendar, View Members
When no tasks are created then the main dashboard displays home members prompts and answers
Main Dashboard
Home members page
Members Page
Lists all home members
In-app calendar
In App Calendar
Calendar will reflect added tasks based on if there's a deadline (eg. telling out the bins monday night for tuesday bin collection day)
Task structure
Required:
Name
Task description
Optional:
Frequency, priority, deadline, complexity
Task Management
Task Creation Page
Choose to create a new task
Task Management Page includes list of all tasks
Include filters for the page (individual tasks, overall house chores for the week, and the unchanged ones too)
Include sort filter to let user sort by date, priority etc.
User completes form
New or updated recurring tasks, based on that frequency, are queued and held until the task reshuffling date, at which point they are sent to the distributor
Distributes all Tasks automatically assigned/reshuffled every Saturday night at a certain time so that no one is left responsible to shuffle.
Task Loader/buffer
Task distributor
Adds tasks to members in app Calendar
Tap to view a task
Task Description Page
Choose to edit task
Task edit form
User completes form
Update task with changes
Task description includes name, task description, frequency, priority, deadline, complexity, assignee
Changes to edited tasks are reflected in the next distribution
